The revision of these protocols could not have been accomplished without the invaluable assistance and input from the following individuals:

James Chandler	Executive Director	Tidewater EMS Council, Inc.
Rusty Hundley	Chair	Medical Operations Committee

We would also like to thank all the physicians, nurses, and EMS providers who unselfishly gave their time and expertise in reviewing and commenting on the protocols during the revision process. Without their input we would not be using the most well organized, progressive, and complete set of prehospital medical protocols in the Commonwealth of Virginia today. Many thanks are extended to each and every person who assisted in this project.

Thank you all very much from the TEMS staff.
